FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

Mr. Gary Williams
One Spartan Lane
Lewisburg, WV 24901

Dear Mr. Williams:

Thank you for your electronic mail message to President Clinton expressing your views regarding the implementation of the schools and libraries universal service support mechanism of the Telecommunications Act of 1996 (1996 Act). The White House has asked me to respond to your message.

On May 7, 1997, the Commission adopted the Joint Board's recommendation to provide discounts for telecommunications services for schools and libraries ranging from 20 to 90 percent, with economically disadvantaged schools and libraries receiving the greatest discounts. The Commission adopted the Joint Board's recommended rule that would give schools and libraries maximum flexibility to apply their universal service discount to whatever package of telecommunications services they believe will meet their needs most effectively and efficiently. In addition to all telecommunications services, discounts may be applied to Internet access and internal connections.

The annual cap for the schools and libraries program is \$2.25 billion. During the first half of 1998, the Universal Service Administrative Company (USAC) was directed to collect \$625 million for the school and libraries mechanism. Schools and libraries should begin to receive discounts this fall.

On June 12, 1998, the Commission revised the funding year for the schools and libraries support mechanism and froze the amount of funding for schools and libraries at current rates. With regard to the schools and libraries support mechanism, the Commission directed USAC to collect and disperse no more than \$325 million per quarter for the third and fourth quarters of 1998 and the first and second quarters of 1999. Because the revised funding amounts will not fully satisfy the estimated demand by the schools and libraries that have submitted applications, the Commission revised the disbursement rules to ensure that the most disadvantaged schools and libraries get priority for support. The annual cap remains unchanged. Although the collection amounts have been revised, we will continue our commitment to provide support to eligible schools and libraries for telecommunications services, Internet access, and internal connections.

Dear President Clinton

West Virginia has made great advancements in computers in the classroom with its SUCCESS program. At Greenbrier East High School we have added two computer labs of fifty computers each with new fiber cabling. Students use these computers every period

However our internet connection is to slow (56K).

Please support full funding and services for the E-Rate telecommunications discounts for schools and libraries.

Please oppose any further effort to undermine, eliminate, or delay the E-Rate program.
